

STREAM KID APOLLO'S LATEST SINGLE, "SHAMELESS"

NEW SINGLE RELEASE 26th FEBRUARY 2021

"Musically diverse and inspired" – Boulimique de Musique

"There is an aura of mid-seventies pop about his sweet upper register delivery. Dare I mention Randy Newman, Elton John and even Kevin Ayers?" - Neil March, Trust the Doc

Kid Apollo is a solo artist hailing from Derry, Ireland. He writes, records and produces all his music from a beat-up laptop in a cramped bedroom.

The Derry artist blends many genres and styles of music together in order to match his creative vision. No two songs are the same, yet each carry an unmistakable flow and melodic drive that Kid Apollo is making into his very own sound.

In a short amount of time, Kid Apollo's music has found its way on to various Spotify playlists, reddit front pages and, although slightly reluctant to admit it, several TikToks. Beginning a solo career in 2020 wasn't easy, but for him it was worth the journey. In 2021, Kid Apollo hopes that he can bring his music to a wider (and hopefully live) audience and expand his musical repertoire even further.

“Shameless” is the latest single release from Kid Apollo. The track is a downtempo, reflective, laid-back song with chilled vibes and lyrics that speak about reminiscing on bygone days when we could head out with friends and have messy nights out. Soft, warm acoustics and cold, airy synths ride over a hip-hop/r&b style beat creating a unique juxtaposition between genres that embellish the song with a striking melancholy feeling. The balance between nostalgic lyrics and the soft vocal delivery will have many hearing the inspiration from the likes of Damon Albarn, Billie Eilish and Sufjan Stevens.

“I think I will name this artist as my one to watch” – Del Osei-Owusu, Freshonthenet

“...There were hints of David Bowie in there and lots of different influences clearly... just a very talented guy - can't wait to see what he brings out next!” - Emma Wallace, TV Producer & Radio Presenter
